

multiwatt®

Photovoltaic Wholesale With Planning Services

Development & Planning

PV Systems
Heating | Sanitary | Ventilation
Cord plans
3D Bath planning

Trading & Logistic

Warehousing
Consignment sale / Picking
Truck | Plane | Sea freight
Import | Export | Handling

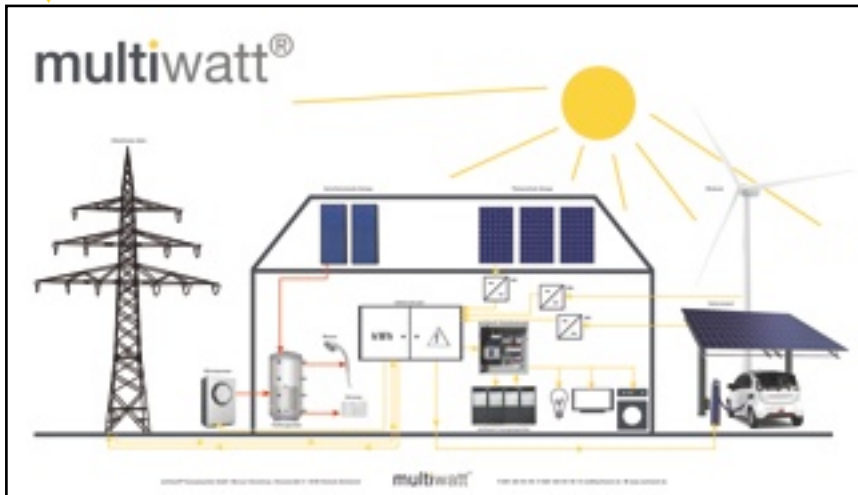

Development

Development of Energy Storage Systems

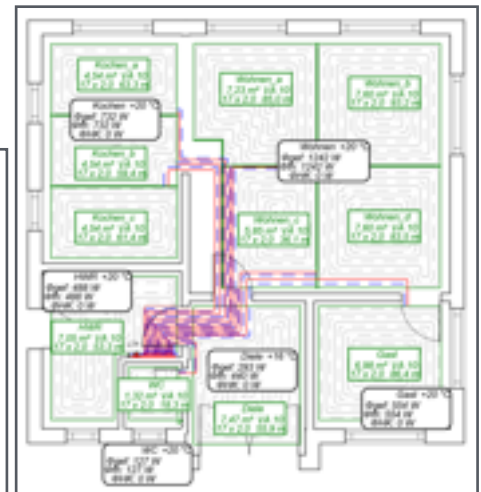

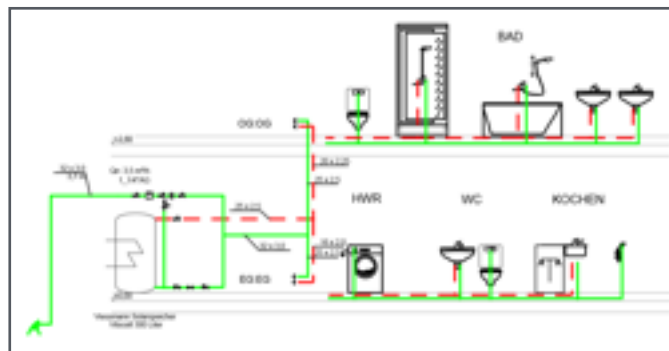

- different power ratings
- GEL, plump/acid or Li-Technology
- Thanks to 4 single accutainer easy installation in small rooms

Development of Energy concepts

Planning

- Floor heating installation plan
- Heat pump dimensioning
- Heating load calculation
- Water planning
- Cord planning
- Wastewater planning
- Building inspection
- Revision plans
- Energy concepts

Trading

Photovoltaic

Solar modules of different quality-producer

Heat pumps

Air/Water

Water/Sole

Biomass Boilers

Wood and Pellets

Off-Grid Systems

autonomous power supply

Complete Systems

PV-Systems in different sizes with fitting inverters

Off-Grid Systems

Wind Energy Systems

Energy Storage Systems

multiwatt® Energy Storage

Lithium, GEL batteries

different power ratings

Solar Thermal Energy

Flat panels and tube collectors

Inverter

1-phase & 3-phase, battery inverter

Micro-Inverter (small systems & Off-Grid)

Sub structure

Roof top systems for every kind of roof

Free-field

Accessories

Connectors, cable, tools

Logistic

- ▶ Warehousing of goods in own warehouse in Rostock-Bentwisch

- ▶ Picking of customer orders or complex projects orders

- ▶ International organisation of transports via truck, plane or sea freight incl. customs clearance & import and export documents

M1 Energy-Plus-Massive-House

multiwatt® won *Energy Award* for the planning of an energy concept for the M1 Energieplus Massivhaus
